Dear Dr. Ganeshkumar:

Congratulations! By recommendation of the Credentialing and Membership Committee, you were elected to **FELLOW** status in the American College of Cardiology on August 20, 2013. Accordingly, the roster of the College has been updated.

As a newly elected Fellow of the College, please reserve **Monday, March 31, 2014** for the Convocation ceremony at the **63rd Annual Scientific Session in Washington, DC March 29 – 31**. Your Fellowship certificate will be available immediately following the ceremony. The Convocation is a prestigious and grand ceremony and you can view the highlights of the 2013 Convocation at <http://www.cardiosource.org/en/ACC/About-ACC/Who-We-Are/The-FACC-Designation.aspx>. Details regarding the 2014 Convocation will follow at a later date.

Your membership in the College follows on years of education and training and it is a key part of your professional identification within the discipline and to the general public.

Our advanced field requires us to keep pace with the latest in research findings and practice, so the College is a premier source of scholarly information, clinical guidance, educational products and programs, and cutting-edge presentations and networking opportunities at the Annual Scientific Sessions. For a full list of member benefits visit www.CardioSource.org/MemberBenefits. You are encouraged to take part in the activities of the College, and network locally through your Chapter or through contact with member colleagues in your community. Connect with your chapter at www.CardioSource.org/Chapters.

Your support helps us pursue the ACC Mission to advocate for quality cardiovascular care—through education, research promotion, development and application of standards and guidelines—and to influence health care policy. Our values shape our efforts:

- **Professionalism:** The interests of patients are primary.
- **Knowledge:** The College promotes growth, dissemination and application of knowledge.
- **Value of the Cardiovascular Specialist:** The cardiovascular profession makes a distinct contribution to medical care that should be recognized and enhanced.
- **Integrity:** Honesty, compliance with legal requirements, and ethical behavior are essential.
- **Member driven:** The College must be led by active members and must promote volunteerism.
- **Inclusiveness:** The College involves a broad range of volunteers that reflects its composition.
