

# National Accreditation Board for Testing and Calibration Laboratories

## SCOPE OF ACCREDITATION

**Laboratory Name :**

DEPARTMENT OF LABORATORY MEDICINE - DR L H HIRANANDANI HOSPITAL,  
FIRST FLOOR, HILLSIDE AVENUE, HIRANANDANI GARDENS, POWAI, MUMBAI,  
MUMBAI SUBURBAN, MAHARASHTRA, INDIA

**Accreditation Standard**

ISO 15189:2022

**Certificate Number**

NABLM0626MH08138

**Page No**

1 of 13

**Validity**

19/06/2026 to 18/06/2030

**Last Amended on**

| 76   | CLINICAL PATHOLOGY    | Ascitic fluid                                | WBC Count (Ascitic fluid)                                                                                                        | Flow Cytometry                                                                                       |
| 77   | CLINICAL PATHOLOGY    | Cerebrospinal Fluid (CSF)                    | Mononuclear Cell (MN) & Polymorphonuclear Cell (PMN) (CSF)                                                                       | Side Fluorescent Light (SFL) and Forward Scattered Light (FSC)                                       |
| 78   | CLINICAL PATHOLOGY    | Cerebrospinal Fluid (CSF)                    | RBC Count (CSF)                                                                                                                  | Impedence                                                                                            |
| 79   | CLINICAL PATHOLOGY    | Cerebrospinal Fluid (CSF)                    | Routine Examination: Volume; Color; Appearance; Clot; Blood (CSF)                                                                | Physical examination                                                                                 |
| 80   | CLINICAL PATHOLOGY    | Cerebrospinal Fluid (CSF)                    | WBC Count (CSF)                                                                                                                  | Flow Cytometry                                                                                       |
| 81   | CLINICAL PATHOLOGY    | Pleural fluid                                | Mononuclear Cell (MN) & Polymorphonuclear Cell (PMN) (Pleural fluid)                                                             | Side Fluorescent Light (SFL) and Forward Scattered Light (FSC)                                       |
| 82   | CLINICAL PATHOLOGY    | Pleural fluid                                | RBC Count (Pleural fluid)                                                                                                        | Impedence                                                                                            |
| 83   | CLINICAL PATHOLOGY    | Pleural fluid                                | Routine Examination (Volume; Color; Appearance; Clot; Blood) (Pleural fluid)                                                     | Physical examination                                                                                 |
| 84   | CLINICAL PATHOLOGY    | Pleural fluid                                | WBC Count (Pleural fluid)                                                                                                        | Flow Cytometry                                                                                       |
| 85   | CLINICAL PATHOLOGY    | Semen                                        | Semen Volume; Appearance; Viscosity                                                                                              | Physical examination                                                                                 |
| 86   | CLINICAL PATHOLOGY    | Semen                                        | Fructose                                                                                                                         | Seliwanoff's method                                                                                  |
| 87   | CLINICAL PATHOLOGY    | Semen                                        | Liquefaction Time                                                                                                                | Physical examination: Visual observation                                                             |
| 88   | CLINICAL PATHOLOGY    | Semen                                        | Microscopic Examination morphological examination using pap's stain for Total normal spermatozoa, Head, Neck & Tail abnormality. | PAP staining and Microscopy with modified Neubauer chamber                                           |

# National Accreditation Board for Testing and Calibration Laboratories

## SCOPE OF ACCREDITATION

**Laboratory Name :**

DEPARTMENT OF LABORATORY MEDICINE - DR L H HIRANANDANI HOSPITAL,  
FIRST FLOOR, HILLSIDE AVENUE, HIRANANDANI GARDENS, POWAI, MUMBAI,  
MUMBAI SUBURBAN, MAHARASHTRA, INDIA

**Accreditation Standard**

ISO 15189:2022

**Certificate Number**

NABLM0626MH08138

**Page No**

5 of 13

**Validity**

19/06/2026 to 18/06/2030

**Last Amended on**

-

# National Accreditation Board for Testing and Calibration Laboratories

## SCOPE OF ACCREDITATION

**Laboratory Name :**

DEPARTMENT OF LABORATORY MEDICINE - DR L H HIRANANDANI HOSPITAL,  
FIRST FLOOR, HILLSIDE AVENUE, HIRANANDANI GARDENS, POWAI, MUMBAI,  
MUMBAI SUBURBAN, MAHARASHTRA, INDIA

**Accreditation Standard**

ISO 15189:2022

**Certificate Number**

NABLM0626MH08138

**Page No**

6 of 13

**Validity**

19/06/2026 to 18/06/2030

**Last Amended on**

| 136  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Erythrocyte Sedimentation Rate (ESR)                                                                       | Modified Westergren's Method                                                                         |
| 137  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | G6PD, Qualitative                                                                                          | Dye Decolorisation                                                                                   |
| 138  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Haematocrit (HCT)                                                                                          | Cumulative RBC pulse height Detection method                                                         |
| 139  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Haemoglobin (Hb)                                                                                           | SLS-Methemoglobin (SLS-Hb) Method(Non Cyanide)                                                       |
| 140  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Lymphocyte - Absolute Count                                                                                | Fluorescence flow cytometry                                                                          |
| 141  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Lymphocyte - Relative Count                                                                                | Fluorescence flow cytometry                                                                          |
| 142  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Malarial Parasite (MP) with Parasitic Index (PI) (Plasmodium vivax & Plasmodium falciparum)                | Giemsa Stain - Thin and Thick Smear with Microscopy                                                  |
| 143  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Mean Corpuscular Haemoglobin(MCH)                                                                          | Derived from Hemoglobin and Red Blood Cell                                                           |
| 144  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Mean Corpuscular Haemoglobin Concentration (MCHC)                                                          | Derived from haemoglobin and HCT                                                                     |
| 145  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Mean Corpuscular Volume (MCV)                                                                              | Derived from HCT and RBC                                                                             |
| 146  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Mean Platelet Volume (MPV)                                                                                 | Derived from Platelet Count and plateletcrit                                                         |
| 147  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Monocyte - Absolute count                                                                                  | Fluorescence flow cytometry                                                                          |
| 148  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Monocyte - Relative count                                                                                  | Fluorescence flow cytometry                                                                          |
| 149  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Neutrophil - Relative count                                                                                | Fluorescence flow cytometry                                                                          |
| 150  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Neutrophil - Absolute count                                                                                | Fluorescence flow cytometry                                                                          |
| 151  | HAEMATOLOGY & IMMUNOHAEMATOLOGY | EDTA Whole Blood             | Peripheral Smear                                                                                           | Leishman's Stain with Microscopy                                                                     |

# National Accreditation Board for Testing and Calibration Laboratories

## SCOPE OF ACCREDITATION

**Laboratory Name :**

DEPARTMENT OF LABORATORY MEDICINE - DR L H HIRANANDANI HOSPITAL,  
FIRST FLOOR, HILLSIDE AVENUE, HIRANANDANI GARDENS, POWAI, MUMBAI,  
MUMBAI SUBURBAN, MAHARASHTRA, INDIA

**Accreditation Standard**

ISO 15189:2022

**Certificate Number**

NABLM0626MH08138

**Page No**

8 of 13

**Validity**

19/06/2026 to 18/06/2030

**Last Amended on**

-

| 160  | MICROBIOLOGY & INFECTIOUS DISEASE SEROLOGY | Nail Scraping / Skin / Hair / Pus / Sputum / Pus swabs / Wound Swabs / Urine / Pleural fluid, Ascitic fluid, Peritoneal/ abdominal fluid, Synovial/ joint fluid, cyst fluid, CSF/Oral secretions, nasal secretions, Endotracheal/ tracheal secretions, Bronchoalveolar lavage, drain fluids/ Tissue | Fungal Smear Examination                                                                                   | Wet mount in KOH: 10 % KOH - Skin/ Pus / Sputum / swabs / Urine / Pleural fluid, Ascitic fluid, Peritoneal/ abdominal fluid, Synovial/ joint fluid, cyst fluid, CSF/Oral secretions, nasal secretions, Endotracheal/ tracheal secretions, Bronchoalveolar lavage, drain fluids/ Tissue 20 % KOHNail/ Hair |
| 161  | MICROBIOLOGY & INFECTIOUS DISEASE SEROLOGY | Pleural fluid, ascitic fluid, peritoneal/ abdominal fluid, synovial/ joint fluid, cyst fluid, CSF                                                                                                                                                                                                   | Aerobic Culture & AntimicrobialSusceptibility Test                                                         | Conventional Aerobic Culture & Identification by Advanced colorimetric method and conventional methods (Biochemical tests) & Antimicrobial Susceptibility Test by automated MIC methodology and by disc diffusion (Kirby Bauer)                                                                           |

# National Accreditation Board for Testing and Calibration Laboratories

## SCOPE OF ACCREDITATION

**Laboratory Name :**

DEPARTMENT OF LABORATORY MEDICINE - DR L H HIRANANDANI HOSPITAL,  
FIRST FLOOR, HILLSIDE AVENUE, HIRANANDANI GARDENS, POWAI, MUMBAI,  
MUMBAI SUBURBAN, MAHARASHTRA, INDIA

**Accreditation Standard**

ISO 15189:2022

**Certificate Number**

NABLM0626MH08138

**Page No**

9 of 13

**Validity**

19/06/2026 to 18/06/2030

**Last Amended on**

-

# National Accreditation Board for Testing and Calibration Laboratories

## SCOPE OF ACCREDITATION

**Laboratory Name :**

DEPARTMENT OF LABORATORY MEDICINE - DR L H HIRANANDANI HOSPITAL,  
FIRST FLOOR, HILLSIDE AVENUE, HIRANANDANI GARDENS, POWAI, MUMBAI,  
MUMBAI SUBURBAN, MAHARASHTRA, INDIA

**Accreditation Standard**

ISO 15189:2022

**Certificate Number**

NABLM0626MH08138

**Page No**

10 of 13

**Validity**

19/06/2026 to 18/06/2030

**Last Amended on**
