PHYSIOTHERAPY HOME CARE SERVICE

Orthopedic Rehabilitation

Following Joint Replacement Surgery, Fractures, Spinal Surgeries and various other problems related to bones and spine. The exercises help to improve the muscle strength, joint function and mobility of the patient.

Neurological Rehabilitation

For patients suffering from Stroke, Parkinson's disease and other neurological problems to enhance and restore the functional ability thereby improving the quality of life.

Pain Relief

Using Electrotherapeutic Modalities like Ultrasound Therapy (US), Transcutaneous electrical Nerve Stimulation (TENS), Interferential Therapy (IFT), Short wave Diathermy (SWD) and prescribing exercises to strengthen muscles.

Pulmonary Rehabilitation

For Post covid patients and patients suffering from Asthma, Bronchitis and various other respiratory problems. This includes chest physiotherapy, postural drainage and exercises to strengthen the respiratory muscles.

Geriatric Rehabilitation

for elderly citizens to strengthen their muscles and improve balance to prevent falls and injuries.

Post Natal Exercises

for new mothers to regain their muscle tone and fitness.

Exercise therapy

to rehabilitate patients following general surgeries, chemotherapy and for bed ridden patients.

Dr L H Hiranandani Hospital offers Physiotherapy treatment in the comforts of your home by qualified well trained Physiotherapists. The Physiotherapist assesses the patients and chalks out a tailor-made treatment plan for each patient.
